

FLIP LID CURRENCY TRAY

PART#: FLIP_LID_CURRENCY_TRAY
PRODUCT LINE: ACCESSORIES

DESCRIPTION

The TSS Flip Tray is designed to achieve maximum security while promoting quick and easy transactions for customers. Every tray is constructed of 18-gauge 304L stainless steel with a #4 finish and has joints that have been welded and ground smooth. All trays can be retrofitted into an existing system or included in a new counter/millwork design. Common examples of items that can be passed through the TSS Flip Lid Tray are cigarette single boxes, small tablets, banana, single chewing tobacco, candy bars, and pill bottles. The exterior version of the TSS Flip Lid Tray can come with a weeping system to ensure no water will be retained in the tray. This product can achieve UL levels 1 through 8 ballistic resistance with the addition of a TSS bullet trap that incases the tray in a protective shell to prevent projectiles from penetrating.

SIZE OPTIONS

- 14 1/2" x 16 1/2" x 2 3/4" (Cut-Out Size: 13 1/2" x 15 1/2")

Please Inquire For Custom Sizes.

Please Specify If Tray Will Be Interior or Exterior
