

## LAZY SUSAN PACKAGE PASSER

PART#: LAZY\_SUSAN\_PACKAGE\_PASSER

PRODUCT LINE: ACCESSORIES

### DESCRIPTION

Designed for heavy use applications, the Lazy Susan Package Passer is frequently used by pharmacies, fast food places and convenience stores, allowing packages to be passed through a barrier between customer and employee without a breach of security. The 360° rotation allows for the transfer of items from behind the counter to the customer without compromising safety. Items such as 2 liter bottles, 6-packs of beer, liquor, loaf of bread, carton of cigarettes can all be passed through this system. The system is comprised of either acrylic or polycarbonate with a black plastic laminated base.

### FEATURES

- Delivered assembled, ready for installation
