

OVERHEAD LOUVER

PART#: OVERHEAD_LOUVER
PRODUCT LINE: ACCESSORIES

DESCRIPTION

Overhead louvers allow for natural sound transmission and prevent the restriction of heating and cooling systems. Overhead louvers also resist and discourage attempts to leap over a barrier. The louvers can help tie the rest of the system to tall ceilings to completely encapsulate the barrier.

OPTIONS

- Custom sizing up to 3' tall by width of adjacent bullet resistant barrier
- Acrylic Glazing: 1/2" thick

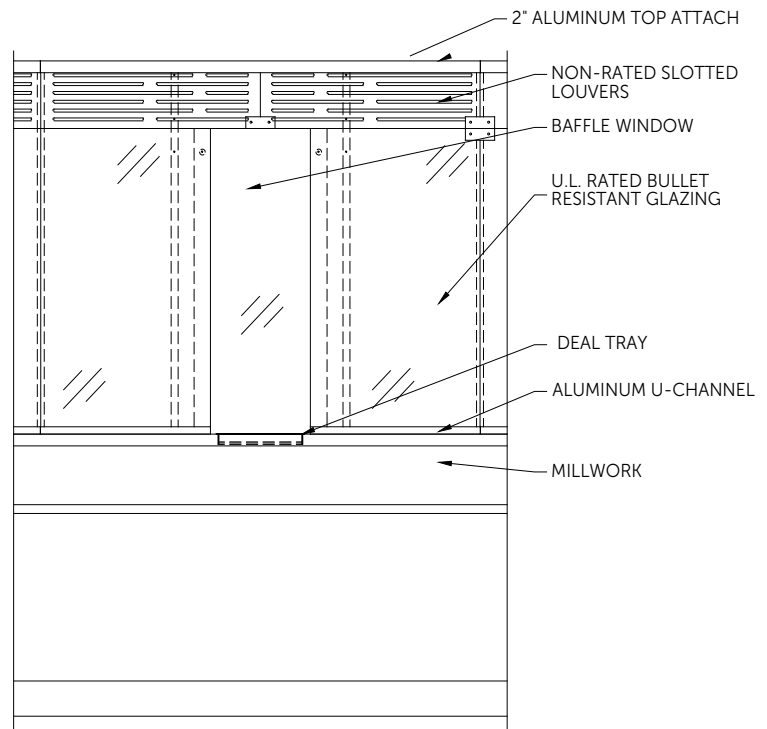

RATINGS

- Non-Rated

STANDARDS

- NSI Z971-1984 Safety Glazing Materials for Building
- ASTM C 1036 Standard Specifications for Flat Glass
- ASTM C 1172 Standard Specification for Laminated Architectural Flat Glass
- ASTM 4802 Standard Specification for Poly (Methyl Methacrylate) Acrylic Plastic Sheet

BAFFLE WINDOW SYSTEM WITH ABOVE SLOTTED LOUVERS
